

Performance & Unit Testing Report

Date	30 June 2026
Team ID	
Project Name	Rising Waters - Flood Hazard Forecasting System
Maximum Marks	4 Marks

1. Automated Test cases (10 Runs)

No.	Test Name	Input Payload	Expected Result	Status
1	test_home_page	GET /	Render index.html with 200 OK	PASSED
2	test_predictor_page	GET /predictor	Render predict.html with 200 OK	PASSED
3	test_docs_page	GET /docs	Render docs.html with 200 OK	PASSED
4	test_portal_page	GET /portal	Render project_docs.html with 200 OK	PASSED
5	test_predict_low_risk	POST /predict (Low)	JSON response (Low Flood Risk)	PASSED
6	test_predict_high_risk	POST /predict (High)	JSON response (High Flood Risk)	PASSED
7	test_validation_negative	POST /predict (Negative)	400 Bad Request	PASSED
8	test_validation_cloud	POST /predict (CC=120)	400 Bad Request	PASSED
9	test_validation_logical	POST /predict (Sum>Ann)	400 Bad Request	PASSED
10	test_api_docs_list	GET /api/project_documentation/list	JSON array matching SDLC folders	PASSED
