Project Name	Rising Waters – AI-Powered Flood Prediction and Early Warning System
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens HDI Predictor • Enters country indicators • Clicks Predict	• System processes data • ML model predicts HDI • Category generated	• User views prediction • Analyzes result • Uses insights
Touchpoint <i>What part of the service do they interact with?</i>	• Web Browser • Input Form • Predict Button	• Flask Backend • ML Model • Dataset	• Prediction Page • Result Display • Category Output
Customer Thought <i>What is the customer thinking?</i>	• "Will this predict correctly?" • "What values should I enter?" • "Easy to use."	• "Processing..." • "Hope prediction is accurate." • "Waiting for result."	• "Prediction looks good." • "Useful information." • "Can compare countries."
Customer Feeling <i>What is the customer feeling?</i>	Curious Interested Hopeful	Excited Waiting Confident	Satisfied Informed Happy

Process Ownership <i>Who is in the lead on this?</i>	User	Flask + ML Model	User
Opportunities <i>How can we improve this stage?</i>	• Better UI • Input validation • Help section	• Improve model accuracy • Faster prediction • Better preprocessing	• Graphs • Country comparison • Download report
