

Demonstration of Proposed Features

Date	30 June 2026
Team ID	XXXXXX
Project Name	Rising Waters – AI-Powered Flood Prediction and Early Warning System
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Flood Prediction	Predicts regional flood hazard risk using Machine Learning algorithms	Implemented	Yes	Working Successfully
2	User Input Form	Accepts cloud cover, annual rainfall, and seasonal precipitation values	Implemented	Yes	User-friendly Interface
3	XGBoost Classifier Model	Predicts flood risk class (0/1) using high-accuracy trained model	Implemented	Yes	Model integrated with Flask
4	Flood Risk Classification	Displays Low Flood Risk or High Flood Risk safety categories	Implemented	Yes	Accurate Classification
5	Meteorology Visualizations	Generates distribution plots, heatmaps, and correlation matrix charts	Implemented	Yes	Saved in Visualizations Folder
6	Flask Web Application	Interactive web dashboard containing predictor form and documentation portal	Implemented	Yes	Successfully Tested

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
